

RIVERDALE
AEROVISTA
NEXT TO AEROCITY, MOHALI

Tricity's most coveted address
in sync with nature and the urban lifestyle...

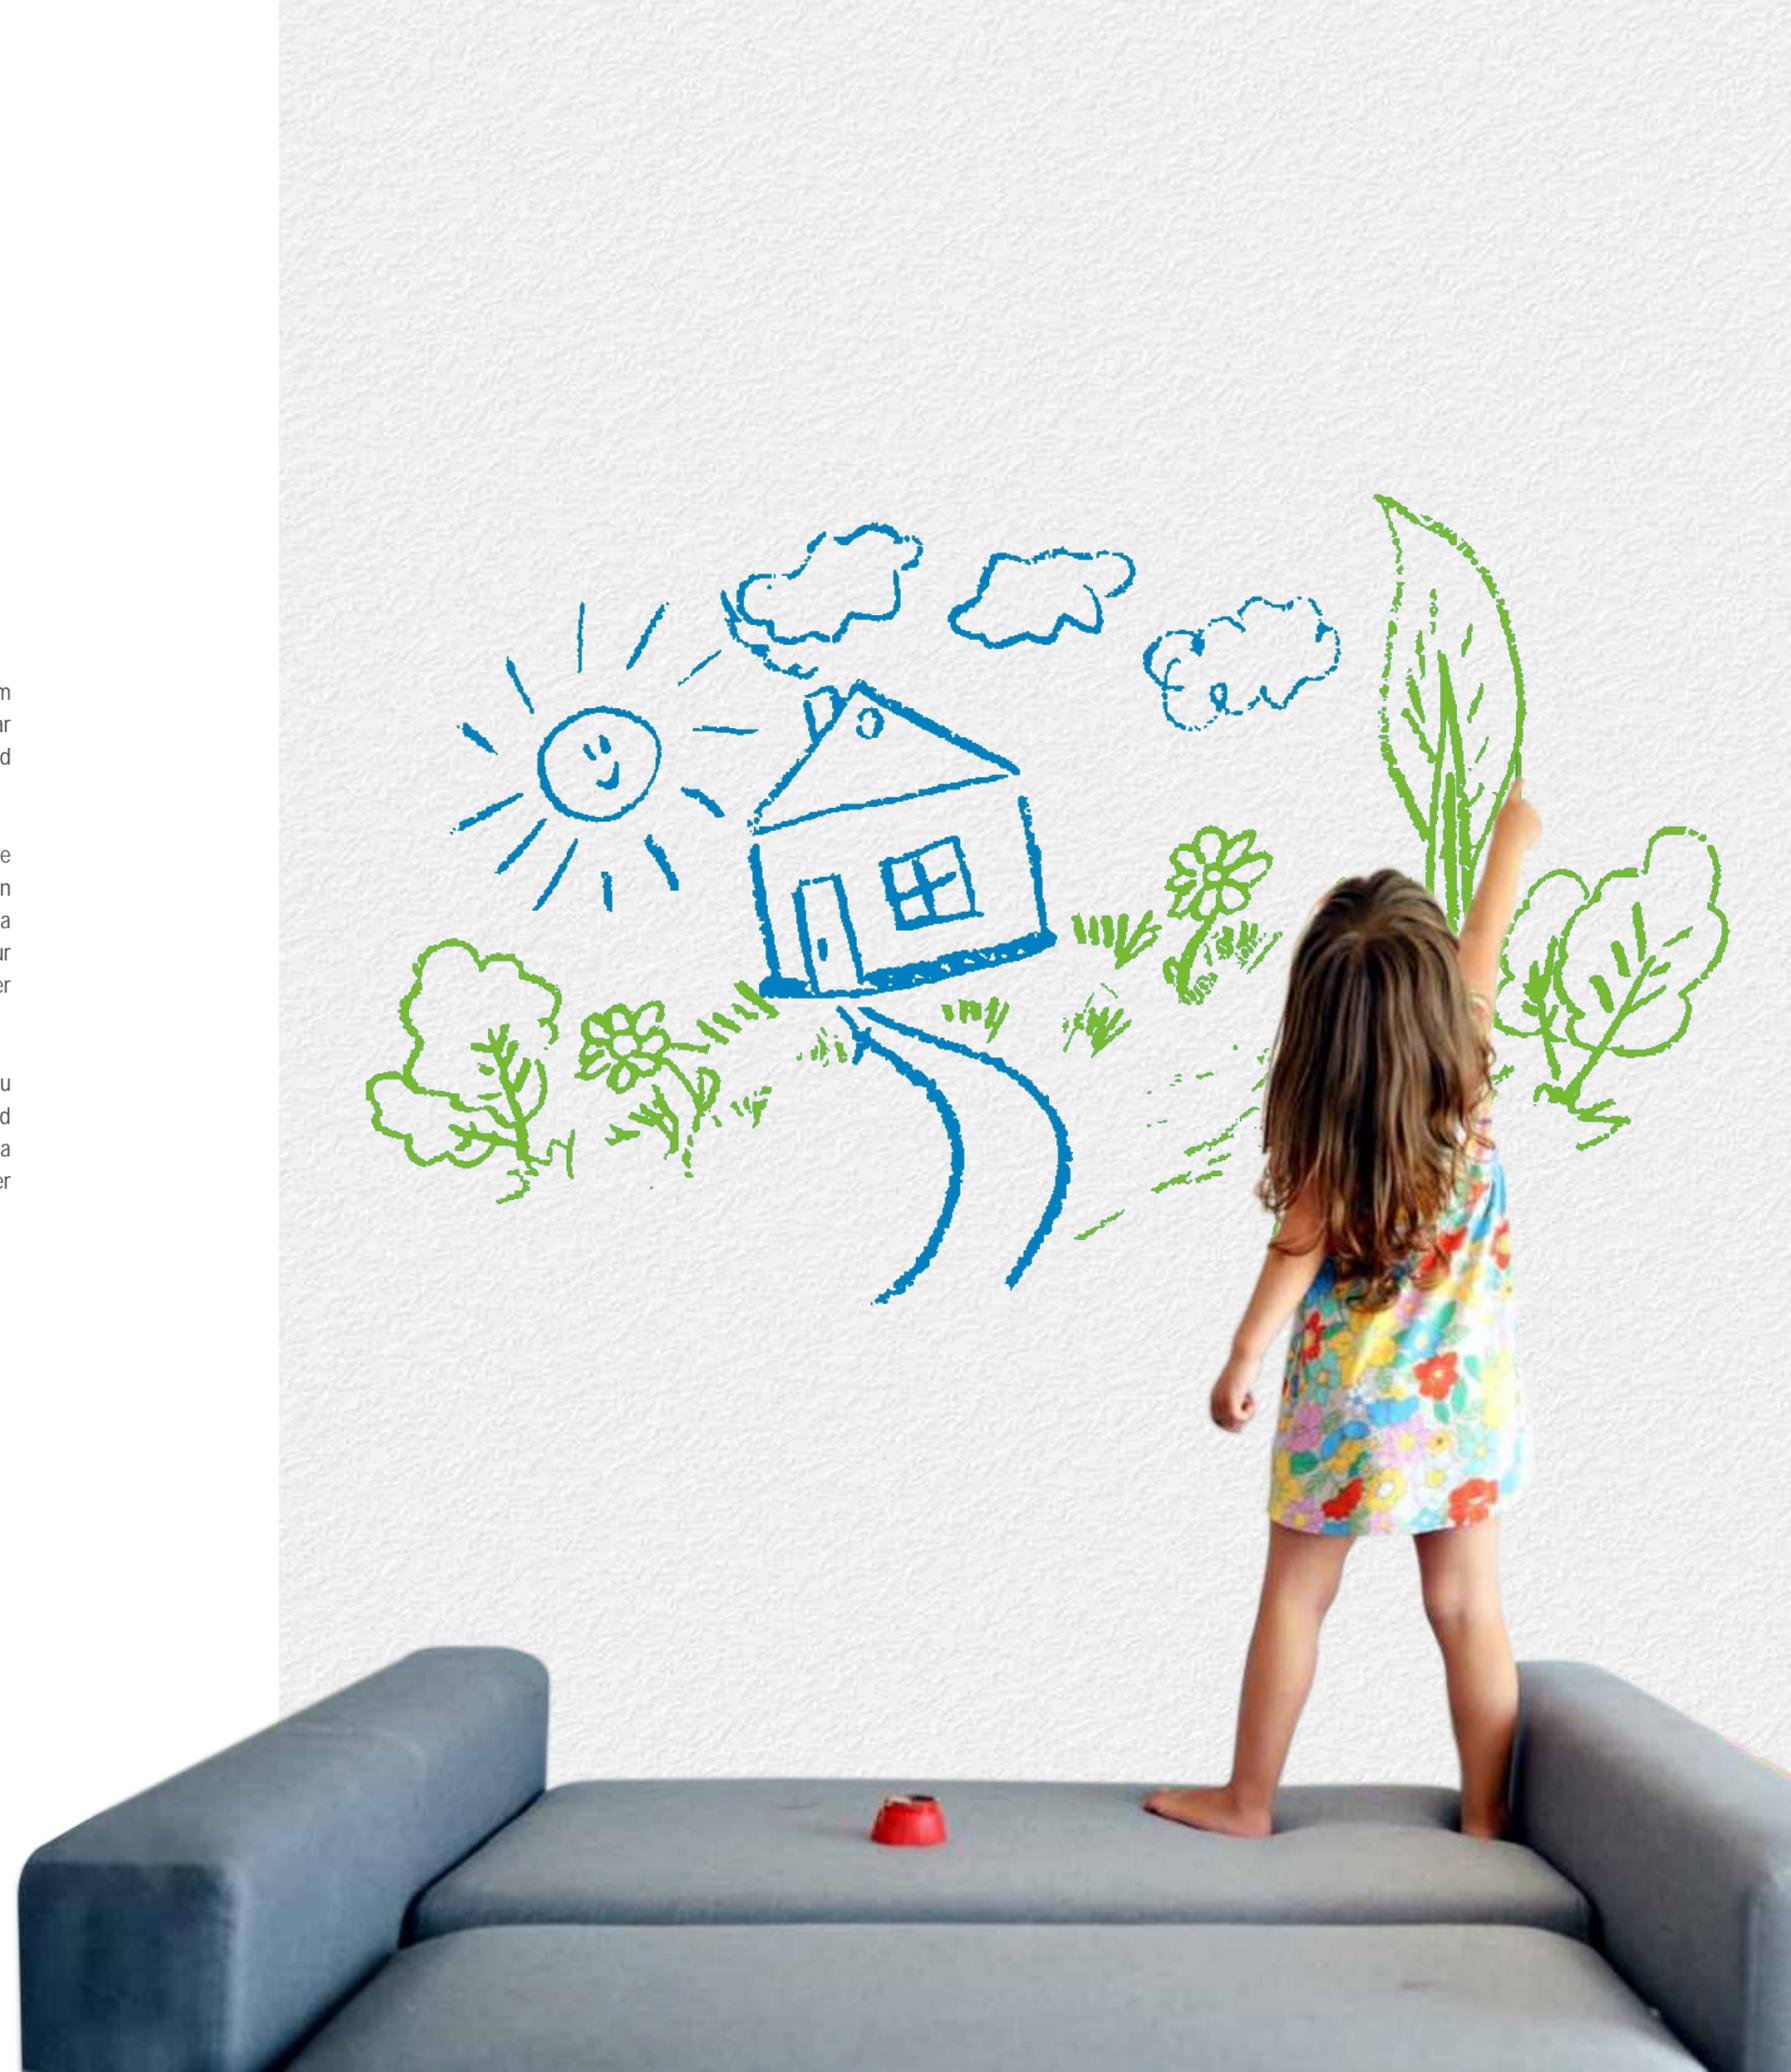

A doodle of inspiration...

Give your kid a crayon and sink a simple instruction into his mind. "Draw a dream home for your family." Chances are he will draw a box shaped house with triangular roof and squares for windows and doors. Now look around this house and you'll find the sun shining in an open blue sky, a vast green field and also - a tree.

Instinctively since we were little, a dream home has always been closer to nature than to a concrete jungle. At Riverdale Aerovista, we too are huge kids that doodle on blueprints. We believe there are few key elements that become the foundation of a perfect home. Bigger living space – for you to throw a party for your colleagues, your wife to decorate at will and your kids to play hide and seek rounds that last longer than 3 seconds. After all that, a bigger space is never too much to ask.

A home should also be affordable without compromising the quality of living. If you live next door to "pollution" and everyday chaotic "traffic jam", it's hardly a good address. We believe a dream home should also be closer to nature to promote a healthier lifestyle. It also should be accessible so that you do not miss another dinner with your family.

So before deciding on buying a house, ask yourself this question, "What is a dream home to you?" then get some crayons, extra blue and green ones and start doodling!

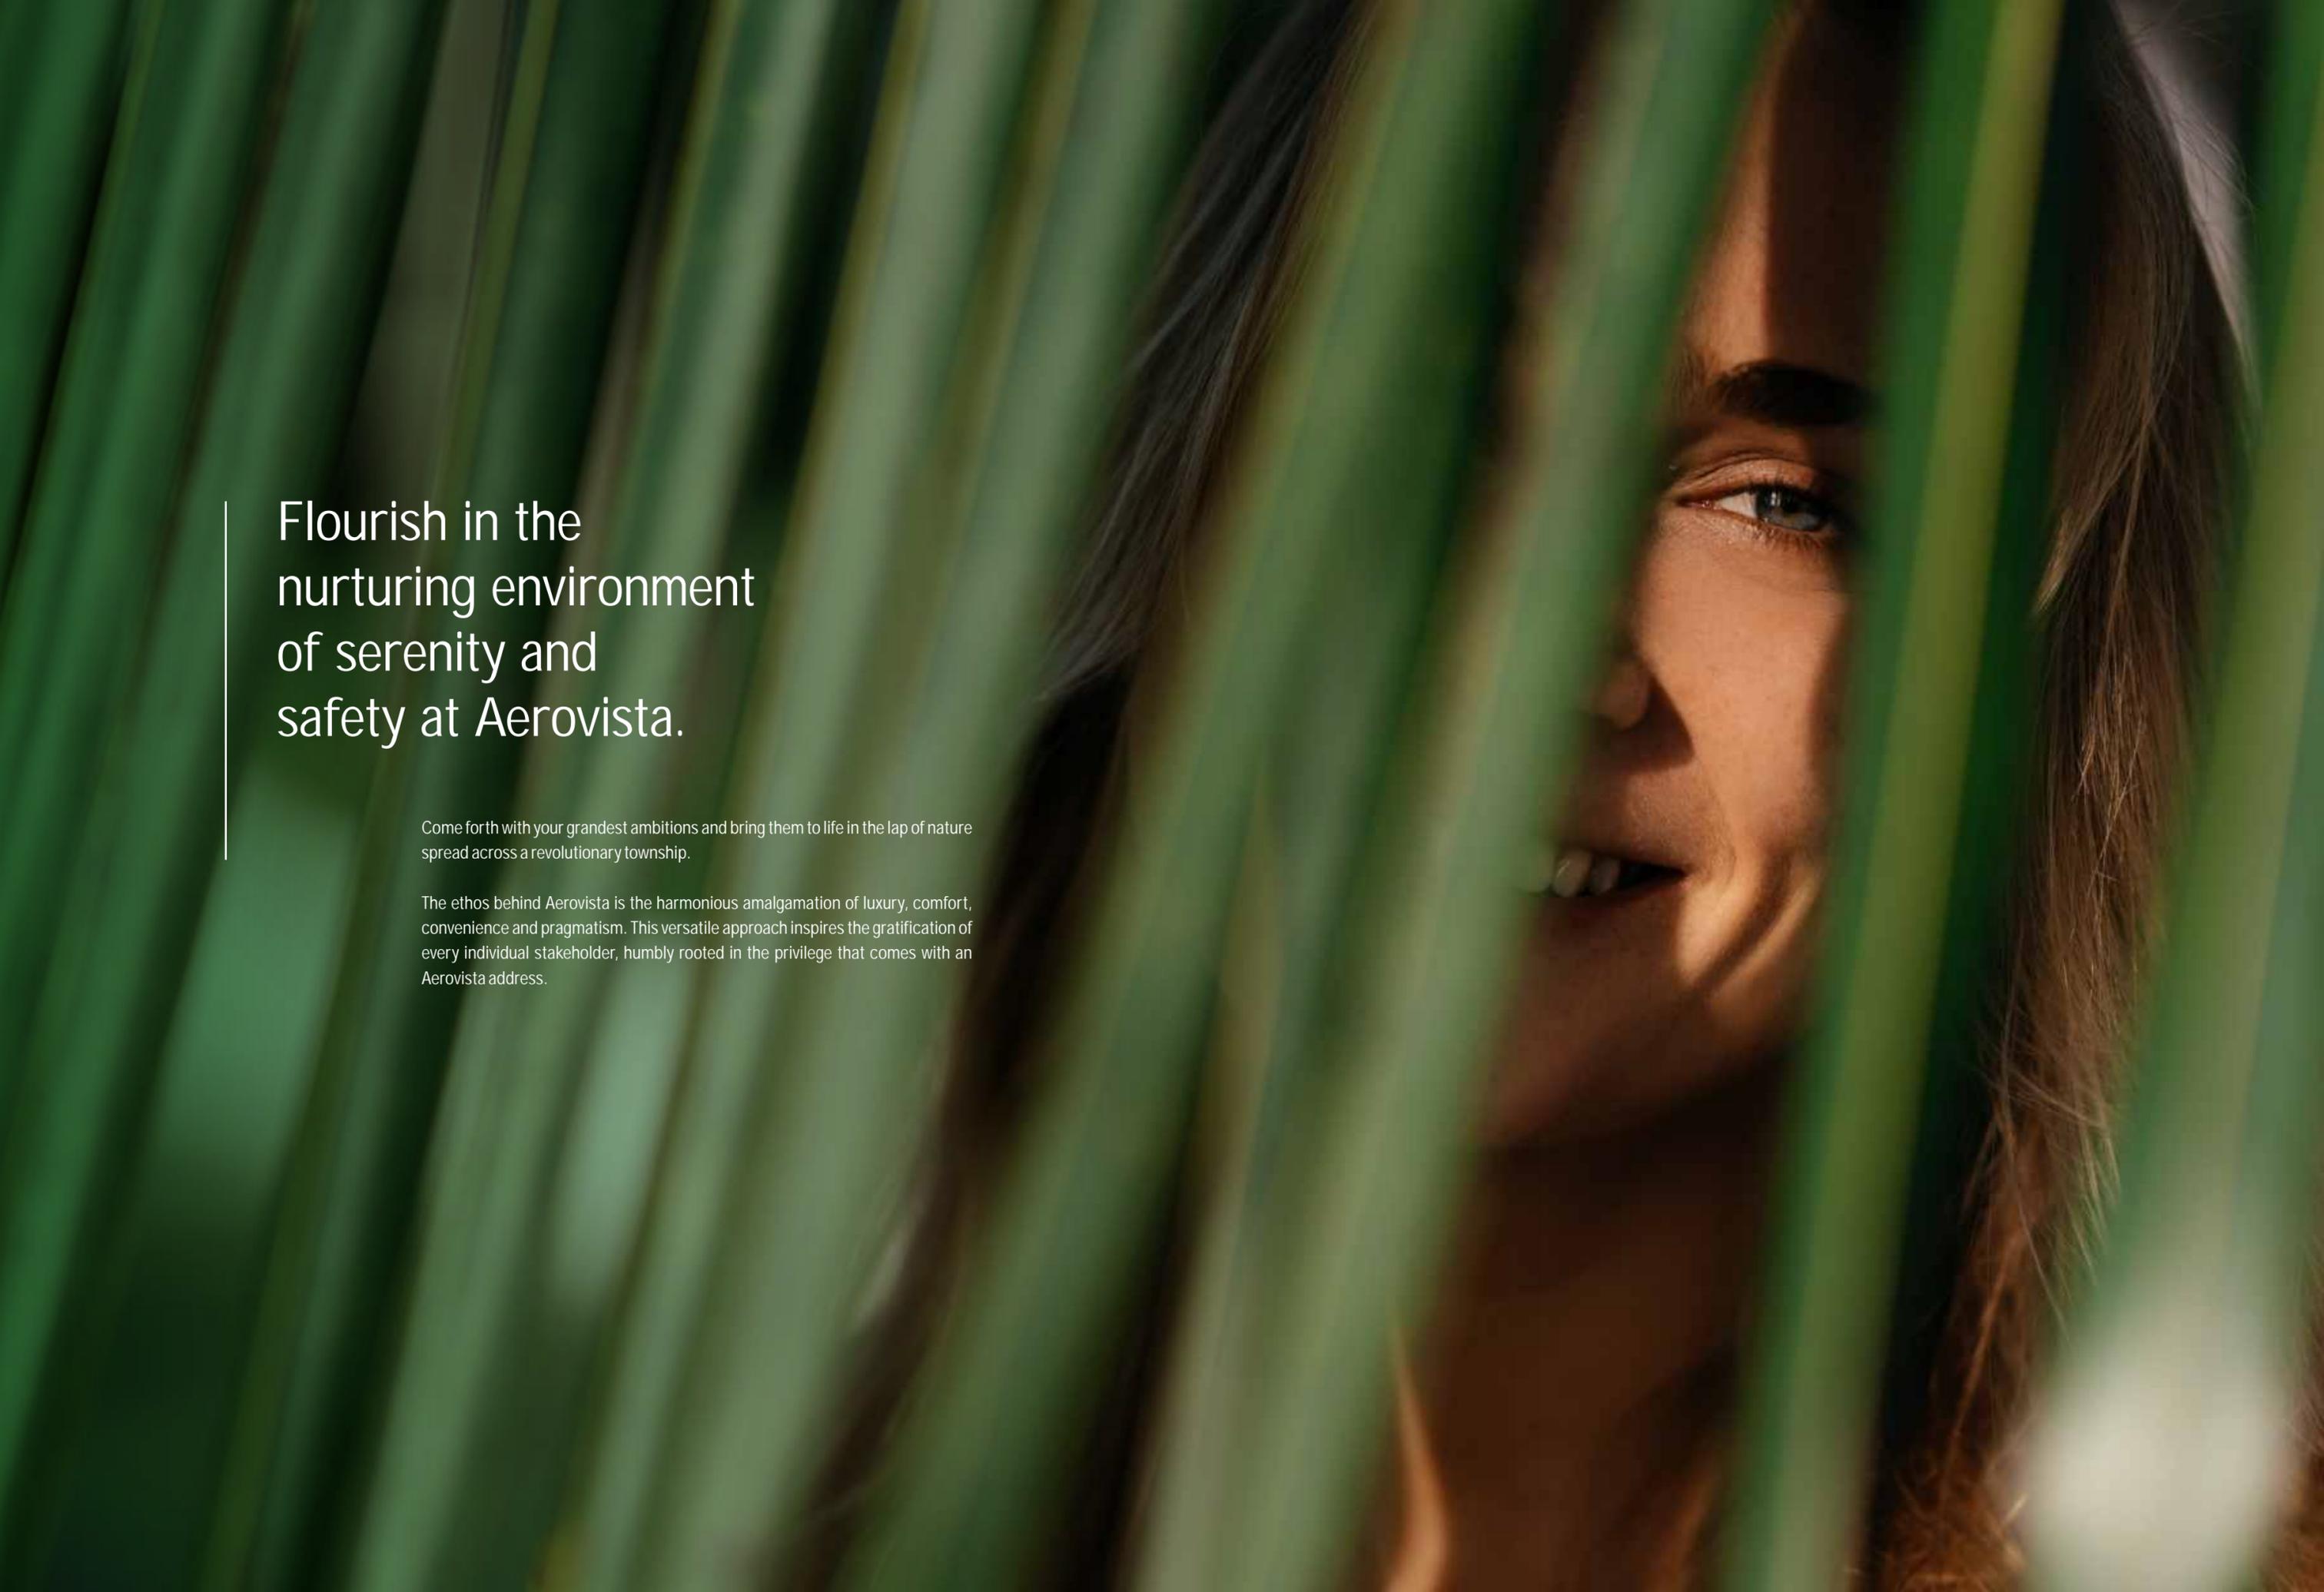

“

The true purpose of a citizen's life is not merely to settle down in society, it is to become a well organized & responsible participant in a productive and vibrant society.

”

A close-up photograph of a woman with long brown hair, smiling gently. She is looking slightly to the right. The scene is filled with vibrant green leaves, some of which are in the foreground, partially obscuring her face and creating a sense of being in a lush, natural environment. The lighting is soft and natural, highlighting her features and the texture of the leaves.

“
 When planting a tree, you must ensure that it gets ample sunlight and nourishment from the mother earth.
 ”

Aerovista is the first of its kind contemporary township to arrive in the periphery of Mohali-Tricity. Situated on the 200-feet wide airport road at the prosperous and admired vicinity of Sector 82, the location provides an unmatched experience for all. Nestled amid nature with greenbelts and sprawling farmlands on its posterior, the tranquil air is pure as it is serene. At the same time, Aerovista is located at the regional hub of connectivity, not too far from the hustle and bustle of life – collectively overlapping a path towards Delhi, Chandigarh, Punjab, Haryana, and Himachal Pradesh directly.

Even within the immediate periphery, Aerovista is within driving distance from GMADA's retail, education, media, institutional and industrial hubs. It easily comes into perspective as the facts speak for themselves. Chitkara University is hardly twenty minutes away, Chandigarh University is 15 minutes away, Fortis Hospital is ten minutes away, the Infosys campus and Ashoka University are less than 1 kilometre away, IISEER is within a 5-minute distance, aerocity's retail and entertainment hubs are even closer, and lastly the Greater Mohali Industrial Area is ten minutes away.

But Aerovista is not where you come to leave. Aerovista is where you arrive to stay; plant your roots and prosper.

Aerovista begets excitement for one and for all!

From the elegant beauty of the Spanish villas to the meticulous craftsmanship of the landscaped parks. The wanderlust of the waterfalls or the peaceful environment of the manicured lawns. The practicality of the commercial complex or the convenient ownership of individual floors.

Aerovista has something for everyone.

Let's renew
our relationship
with nature.

A haven for every resident and visitor.

- Wake up and smell the air. Listen to the sounds of the birds chirping.
- In the evenings, witness the seniors chatting exuberantly. Listen to the children giggling.
- At Aerovista, the adjacent highway connecting 5 different geographic locations is forgotten and left at the gate.
- Cars are replaced with trees.
- Puddles of smoke are replaced with fresh air and zen gardens.
- There are landscaped parks instead of parking lots.
- The stress of traffic lights is mitigated with meditation and yoga areas.
- The backdrop is dotted with clear skies and beautiful nature.

Every step
you take at Aerovista
is meticulously
planned.

The open spaces ensure a secure environment for your children to play in. Wide open roads ensure visitors can comfortably navigate the township. Designated picnic spots encourage social interactions. Dedicated tracks for cycling and jogging allow enthusiasts to freely partake in their passions. Underwater provisions for gas lines and electric mains avert intrusion with flora and fauna. Small mounds add character to the landscape. At Aerovista, every square inch of land serves a purpose. A purpose that satiates your desire to nestle in nature and rejuvenates your senses with positivity. Let nature dazzle in your life, only with Aerovista.

“

Every man needs a relaxing place away from home.
To be himself. Let go himself.
And yet be eager to come back home.

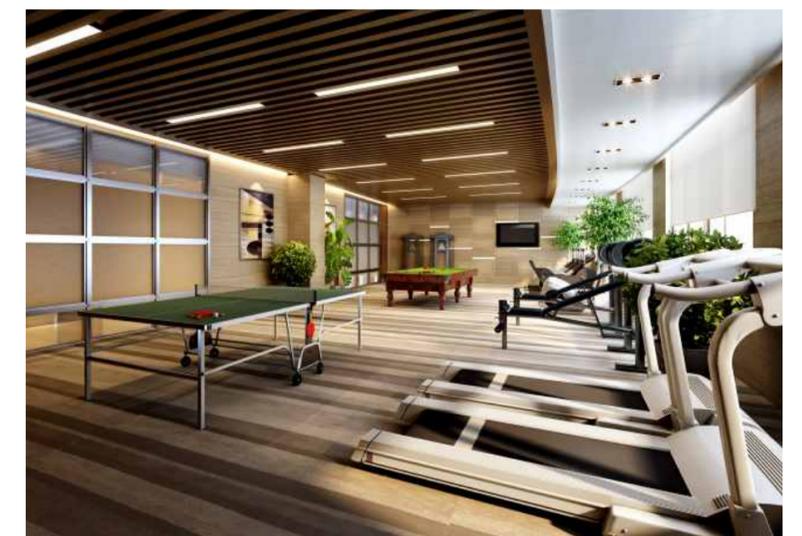

”

A temple of grandeur accessible to all.
